

TC5 40hp DUPLEX
THE TYPHOON "TC" RANGE incorporates many years of experience in the design and manufacture of fans for the drying and conditioning of grain, potatoes and onions. They are of rugged all steel construction and have high efficiency backward curved impellers which have nonoverloading characteristics whilst maintaining excellent performance against high back pressures. Powered by 3 phase 415 v 50 Hz electric motors, engine or tractor P.T.O. These fans will give many years of trouble free service.

TC7 60hp BARE SHAFT

TC3.5 25hp

All fans supplied with control panels c/w Stardelta starter, motor fuses, overload, door isolator and full humidity and temperature controls.
